ACCEPTANCE LETTER

Women are highly deprived, less rights educated and victim of violence in eastern region of Afghanistan. Very less education, inadequate technical jobs skills and opportunities have been ignored them to build their professional working careers and work as a community regional representatives for women in the Afghanistan.

We anticipate as a government agency to respond to the gender equality, women issues of violence, economic crises and rights provision with the coordination of local CSOs and CBOs. In this regard, we appreciate the proposed idea shared with us by SHPOUL for eastern region and fully recommended to be act upon.

Directorate of Economy, Eastern region as a government NGOs coordination body recommend SHPOUL for subject women supporting project in eastern region.

Regards,

Sayed Qias Saeedi

Director of Economy, Nangrahar
